EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

The second instance of claim 9 has been deleted.

Allowable Subject Matter

3. Claims 1, 5, and 8-13 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record (Schmitt et al.) fails to teach or fairly suggest visualizing the task-oriented step representation as a synchronized step representation by displaying simultaneously at least two different parts programs side-by-side as a step representation, so that steps that indicate a synchronization between the two parts programs are displayed in a common row, in combination with the remaining features and elements of the claimed invention. Conversely, Schmitt debugs a single program

on a flowchart level, with Fig. 6 of Schmitt describing branching instructions of the same program.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
